WHEELING, W. VA., APRIL 7, 1886.

The "boodle gang" of Cincinnati met with the rebuke that it was expected would be administered at the pells on Monday. The frauds had been made so plain by the recent investigations that it was thought if there was any sense of justice among the independent voters of that city a Democratic ticket would stand no show whatever. The result is a very ing corporations.

over 7,000. While it is a great kepublican victory it is fair to presume that those Democrats who were disgusted with Bass McLean's methods contributed their victs to swell the force of the rebuke.

The vote in Precinct A of the Fourth ward, where the greatest villainy was hatched, bears out the findings of the investigating committee. The Republican candidate received 203 votes and his Democratic opponent 202. Last October Hoadly was credited with 926, and the meager total of 48 votes was portioned out to Foraker.

The result naturally takes the shape of a very broad hint to Mr. McLean and his strikers that their services in behalf of "reform" are no longer needed in Cincinnati, and if they do not now realize that something has dropped other measures may be taken to impress upon them the meaning of their overwhelming defeat.

meaning of their overwhelming defeat. Fire Loss for March.
The fire waste for March amounts to

three million and a half more than the aggregate of that month for ten years, the total loss being \$10,650,000. The average for the past ten years has been \$7,000,000. In March, 1885 the loss was considered exceptionally severe when it reached \$7,000,000. The severest conflagration was the Key West fire which swept away property valued at \$1,500,000. The Commercial Bulletin commenting on

the enormous record for the month says "that it is discouraging, as regards the tor. hopes heretofore entertained that our people were beginning to recognize the sense and necessity of personal precaution and vigilance against this terrible destroyer of peace and property. At the same time it is to be noted that several of the largest fires-especially that at Key West, the heaviest in the month-found their victims seriously in the vocative as to insur-ance; and, therefore, March may not have been so severe upon the insurance companies as was January or even February. All the same, the national depletion of wealth has been unusually great by reason of this inordinate fire loss in Marcha loss excessive beyond all known precedent for that month." The loss of property is not the only dis-

tressing feature of the calamities. At Key West, for instance, nearly five thousand people are said to have been thrown out of work, and these must to a certain extent be a charge on the charity of the This will also apply to the burning of the Schumaker mills at Akron, Ohio and the destruction of the railroad shops at Brainerd, Minn.

placed upon unjust accumulation, and the power for evil of aggregated wealth. This much-desired object can be accomplished only by the united efforts of those who obey the divine injunction, "In the sweat of thy face shalt thou eat bread."

Therefore we have formed the order, the Knights of Labor, for the purpose of organizing and directing the power of the industrial masses, not as a political party, for it is more—in it are crystalized sentiments and measures for the benefit of the whole people, but it should be borne in mind, when exercising the right of suffrage, that most of the objects herein set forth can only be obtained through legislation, and that it is the duty of all to assist in nominating and supporting with their votes only such candidates as will pledge their support to those measures, regardless of party. But no one shall, however, be compelled to vote with the majority, and calling upon all who believe in securing "the greatest good to the greatest arounds." The Kind of Girl to Marry.

Boston Transcript.

Do not fall in love with a pretty face, my son. Marry a homely woman if you would be happy. In the first place, the probabilities are that no other man will fall in love with her, and you will, therefore, never suffer the pangs of jealousy; and, secondly, she will be so thankful to you for marrying her and frowning upon the pretty girls of her acquaintonce that she will be ever grateful to you and love you with a love such as a girl with a pretty face can bestow upon nothing but her looking-glass.

A Golden Opportunity.

Son Francisco Wap.

"Why, aunt," said a blooming young lady to her ancient spinster relative, as they stood waiting on the corner, "you really don't mean to get on that crowded car, do you?" "That's just what I've been waiting for," replied the antique, grimly; "it's all very well for you young girls to talk, but when I get a chance to sit on a man's lap I aint going to waste it." A Pitiful Sight,

What sadder sight can be imagined than that of a noble man, whom the world can ill-afford to spare, stricken down in the prime of a useful life by consumption.
